Evergreen, Colorado

NOW HIRING · PART-TIME CONTRACT

Love working with kids? Come teach AI Club.

Lead a hands-on after-school AI Club for K-5 students in Evergreen, Wednesday afternoons during the school year.

Real AI. Real Skills. Real Wonder.

✓ We provide the curriculum, lesson plans, and supplies — you bring energy and a passion for AI & tech.

\$75-\$100

per class session

Wednesdays

~2:30-4:00 PM, school year

K-5

up to 15 kids

WHO THIS IS FOR

- ✓ Retired educators
- ✓ Freelance instructors & tutors
- ✓ Parents with free weekday afternoons
- ✓ People who love kids and are into tech & AI

WHAT YOU'D DO

- ✓ Deliver our ready-made AI lessons
- ✓ Keep the room fun, safe & engaged
- ✓ Set up, teach, and clean up
- ✓ Be the face of EverBot at a local school

ABOUT EVERBOT

AI Club by EverBot introduces K-5 students to artificial intelligence through hands-on building activities. We run themed AI Club sessions at schools across the Evergreen area throughout the school year. Learn more at everbot.tech.

YOU'RE A FACILITATOR, NOT A LECTURER

This isn't a teach-from-a-textbook role. You set kids up to build, then let them discover. A great session is loud and busy — kids making things with their hands while you circulate, ask questions, and get excited about what they're creating. The lesson plans tell you exactly what to do; your job is energy, encouragement, and keeping the room safe and on-track.

AT A GLANCE

- ✓ A local Evergreen elementary school, on-site
- ✓ 3 sessions of about 9 weeks each, between September 2026 and April 2027
- ✓ We provide the curriculum, lesson plans, and all materials
- ✓ You bring your own transportation and general teaching kit

WHAT YOU'LL DO

- ✓ Deliver our pre-built, hands-on AI lessons — activities, crafts, and projects for K-5
- ✓ Create a fun, welcoming, and safe environment kids are excited about
- ✓ Manage and engage a group of up to 15 young students
- ✓ Set up and clean up the space each session
- ✓ Route any parent or school questions back to EverBot

MUST-HAVES

- ✓ Experience working with K-5 kids — teaching, camp, enrichment, coaching, or childcare
- ✓ Reliable transportation and comfort driving mountain roads in winter conditions
- ✓ Available Wednesday afternoons across the full session dates (kids count on consistency)
- ✓ Genuinely into tech and AI — you use the tools and get the basics (no need to be an expert)
- ✓ Able to manage and engage a group of up to 15 young children
- ✓ Dependable, punctual, and professional
- ✓ Passes a background screening (criminal, sex-offender & child-abuse registries) and references

NICE-TO-HAVES

- ✓ Prior teaching, enrichment, or camp experience
- ✓ CPR & First Aid certification
- ✓ Deeper AI or tech background, or experience teaching it

THE HONEST PART

Part-time, seasonal, mountain-town work — winter driving and a school-calendar schedule. Leading 15 energetic K-5 kids takes patience and presence. If that's your kind of fun, you'll love it.
