

AI GAME STUDIO

Four Tuesdays. Every student walks out with a **real, playable video game** they built themselves, using AI as their coding partner.

GRADES 6-8

NO EXPERIENCE NEEDED

BRING YOUR CHROMEBOOK

Tuesdays, 4:00–5:30 PM

EMS cafeteria · pickup out front at 5:30

1	Tuesday, October 20	Studio Launch
2	Tuesday, November 3	Build Your World
3	Tuesday, November 10	Enemies & Power-Ups
4	Tuesday, November 17	Launch Day

No club Tuesday, October 27.

WHAT THEY ACTUALLY DO

- Write prompts that get an AI to generate working code
- Build a character, a world, enemies that chase, coins and a score
- Find and fix the bugs, then playtest every game in the room on Launch Day

\$150

for all four weeks
(\$37.50 a session)

15 students maximum.
7 students minimum to run.
Full refund if it doesn't fill.

Kids write the prompts, read the code that comes back, and fix it when it breaks. The AI is a tool they learn to direct, not an answer key.

GOOD TO KNOW

- **Bring your school Chromebook, charged.**
Snacks provided.
- Pickup at the front of the school at 5:30.
- Forgot your Chromebook? You'll pair up, not sit out.
- Miss a week and you can still finish your game.
